CI 102 - Team Profile

Complete the information below for your project. This will inform the instructor about how teams are organized and whether you have a project idea yet. Note that team membership is subject to final approval by the instructor.

Team

Lab section: 060

Team Number   03   (The instructor will provide this number)

Team Members and Roles

List the full name and user ID of every member of your team. Assign initial roles that team members will play. Team members without specific roles should be assigned as "Developer".

Name	User ID	Role
Jessica Hoban	jrh379	Project Manager
Amir Omidi	aao53	Telegram Backend
Balaji Lakshmanan	bsl39	Telegram Backend
Sagar Patel	srp324	Website Backend
Tanfe Aderemi	aa3786	Website Frontend

Project

You are not required to have picked a project at this point. However, if you have any ideas, use the items below to document your initial thoughts. This will help the conversation within your team and with your instructor.

In general terms, what is your project idea?

Using telegram's Bot API, we will create an application-based "Cards Against Humanity" in it. We can also possibly implement a personal and group scoreboard accessible via the web that syncs with the app.

What resources will you need to complete your project (for example, servers and other physical materials)?
- Server
- Cards against humanity data pack
- Database (SQL, Redis, NoSQL)

What are some areas your group will need to learn or try before determining that this project idea is viable?
- Telegram bot API
- Java
- Databases
- A web backend language.
- Web frontend.
